Email: neagu1000@gmail.com **Tel:** 0722761637

Address: Strada Doamna Ghica nr 64 bl 70 sc 2 ap 26

Professional objective

Personal development in the IT domain, not only centered on the Web (PHP, Java EE, Ruby on Rails, Django, Javascript, CSS3 and HTML5), but also on the Software Development side (C++, C#, Java), learning to work in a team and having fun.

In my spare time, I prefer to compose music or play on my guitar, in order to improve my creativity and in the first place, to relax myself.

After a while, I start to play around with a new JavaScript library or a new popular technology to understand it's principles and apply them to my existing knowledge (like Dart or Go). It may be because I'm adventurous or just bored, but surely I eat a lot of information and I carefully digest it.

Afterwards, I ride my bicycle to oxygenate my brain, in order to stay fit and to relax, especially with classical music, because it calms me down.

Professional experience

Experience by departments IT Software : **1 year and 5 months**
Internet / e-Commerce: **6 months**

Apr 2015 - present
11 months
